SUMMARY

I am a WordPress Developer with experience in building responsive, SEO-friendly, and user-focused websites. I have created 15+ landing pages and websites, including business websites, portfolio sites, e-commerce stores, blogs, and high-converting landing pages using WordPress, WooCommerce, and Elementor. I also have working knowledge of HTML and CSS, which allows me to customize designs and improve website functionality. My goal is to help businesses build professional, functional, and conversion-focused websites.
